# WavePoint

Revalue Station

Introducing the most innovative revalue station in the Laundry Services market, WavePoint.

The WavePoint is loaded with features that will completely change the way you think about adding value to smart cards.

Have you ever wished that you could start accepting credit, debit, or EBT cards at your revalue station without adding any hardware, or *even visiting the box?*

Have you ever wanted to know if it was even necessary to send a collector to your revalue station, because *the stacker may only be 1/2 full?*

Do you know, right now, if your revalue station is *low on receipt paper?*

Did someone just *open the door* on your revalue station?

If your revalue station is a WavePoint, the answer to all of these questions, and more, is yes.

high  
security

## Key Features

- Cellular, LAN, Dial
