

**Palm OS units that Debitek has tested and approved**

- Aceeca Meazura (www.aceeca.com)
- Palm Zire 71
- Garmin iQue 3600

NOTE: We have customers using Symbol Palm OS devices (1550) but we have not tested them.

NOTE: The Palm Tungsten C will program chip card readers, but not mag card readers.

Devices that are approved, but have been discontinued. May still be available at retail stores.

- Palm Tungsten T
- The Palm m515 rechargeable battery
- The Palm m130 rechargeable battery
- The Palm m500 rechargeable battery
- The Palm m125 rechargeable battery
- The Palm m100 or m105
- All Palm III and Palm V models
- Handera 330 uses Palm3 cables and accessories.
- Handera TRG Pro uses Palm3 cables and accessories
(The battery door comes off too easily but can be taped)

NOTE: Serial cables may be obtained:

- send an email to bettyandgerry@sympatico.ca.
- purchase one from www.Palm.com. Serial Cable Part # P10804U can be used for the Palm Zire 71, Tungsten T, m515, m130, m500 and m125.
- purchase one from www.Belkin.com.
- purchase one for the Aceeca Meazura 1000 at www.aceeca.com. Communications Cable – Serial part # CAB-MEZ1000-SERCOM.
